GOOGLE FORMS • EDITABLE

TRIANGLES AND CONGRUENCE

PRE-TEST OR REVIEW

DESCRIPTION:

Students will complete a google form that consists of 13 questions. Topics included determining a missing angle value, classifying triangles based on angle values, determining what corresponding parts are congruent, along with proving triangles are congruent.

You are free to use and modify the form to your liking. For example, you could just change the title to make this a quiz or study guide for the chapter.

ACTIVITY DIRECTIONS:

1. Download the activity to your Google Drive by [clicking this link](#).
2. When you click on the link, a screen will appear. Click "**Make a copy**".
3. There are two ways to share with students.
 - If using google classroom just create the assignment like normal and then attach the form from your google drive.
 - If using a different platform go to your google drive and get the sharing link. **Edit the end of the link** by changing the **/edit?usp=sharing** to **/viewform**. The link itself should work but it will share the form and ask students to request access. Be sure to change the end of the link to avoid that issue.

Thank you for purchasing this product!

I hope you find the product useful in your classroom. Please consider leaving a review in [my store](#). You are also free to email me at missdelongmath@gmail.com with any questions or comments.

TERMS OF USE
